

# Certificate of Graduation

Hosted by  
**HACKTIV8 Indonesia**

**Riza Fahmi**  
Co-Founder & Chief  
Evangelist of HACKTIV8

This Certificate is Proudly Presented to

**Nikko Prasetyo**

For successfully completing the program

**Fullstack JavaScript Immersive**

With Predicate **Graduates**

Issued on **19 Dec 2025**

 **HACKTIV8** Bootcamp Predicate Descriptions

## Full Stack JavaScript Full-time Bootcamp

PREDICATE	FINAL SCORE	LEVEL OF COMPETENCIES
Teacher's Award	99 - 100%	<ol style="list-style-type: none"><li>Demonstrates <b>excellence</b> in scalable applications with advanced 3rd-party APIs implementation, cloud deployment, and test-driven development practices</li><li>Creates <b>interactive</b> front-end and mobile development using React.js, Next.js, and React Native with advanced state management</li><li><b>Proficient</b> in implementing TypeScript, NoSQL (MongoDB), caching (Redis), and GraphQL for high-performance applications</li></ol>
Honors	95 - 98.9%	<ol style="list-style-type: none"><li>Builds <b>comprehensive</b> REST APIs applications with robust security features and <b>interactive</b> user interfaces.</li><li><b>Successfully implements</b> Open Authorization, state management, and complex data handling using JS or TypeScript and GraphQL</li><li><b>Deploys</b> applications to cloud platforms and develops mobile applications using React Native</li></ol>
Graduates	80 - 94.9%	<ol style="list-style-type: none"><li><b>Successfully builds</b> standard web applications using JavaScript and React.js</li><li><b>Implements back-end solutions</b> with REST APIs and CRUD operations</li><li><b>Applies</b> TypeScript, Next.js, GraphQL, and React Native for standard application features</li></ol>
Participants	70 - 79.9%	<ol style="list-style-type: none"><li><b>Successfully creates</b> functional websites using HTML, CSS, JavaScript, and Git</li><li><b>Understands</b> server setup and implements basic CRUD operations with REST API concepts</li></ol>

This scoring system reflects the comprehensive Full Stack JavaScript Program curriculum, which covers fundamental to advanced web development competencies. A 80% and above score indicates proficiency in professional full-stack development practices and readiness for industry-standard development work. The assessment is based on practical project implementations, technical evaluations, and demonstrated ability to apply modern development technologies.
